MADONNELLA

MONTEPULCIANO D'ABRUZZO DOP

ANALYTICAL DATA

Alcohol: 14.00 – 14.50% v/v

Residual Sugar: 3.00 – 4.50 g/L

pH: 3.40 – 3.60

Total Acidity: 5.00 – 5.50 g/L

Volatile Acidity: 0.30 – 0.40 g/L

FOOD PAIRINGS

Timballo (baked pasta pie), lasagna, red meats, arrosticini (grilled lamb skewers), and aged cheeses

GRAPE

PRODUCTION AREA:

The vineyards are located in the municipality of Pescosansonesco at 550 meters above sea level, within the Gran Sasso and Monti della Laga National Park. The soil is a loam-clay-limestone mix, rich in organic matter, sloping, and northeast-facing. Summers are dry and well-ventilated.

VARIETY CHARACTERISTICS:

Montepulciano is an indigenous Abruzzese grape variety. It thrives in clay soils, tolerates drought well, and ripens late. Its anthocyanin concentration is among the highest in the world. Rich in tannins, it can be astringent, especially when young. Red fruit notes stand out for their intensity.

WINE

VINEYARD

100% Montepulciano, with a planting density of 4,200 vines/ha. Maximum yield according to regulations: 150 q/ha. Harvested mechanically around mid-October.

VINIFICATION

Red: Maceration and fermentation in stainless steel tanks for 8–10 days with selected yeasts at a controlled temperature of 22–24 °C. Spontaneous malolactic fermentation.

AGEING

In cement tanks, followed by aging in large oak barrels (20 hl and 60 hl) and subsequent bottle aging. Best stored at 14–16 °C and ideally consumed within 10 years of the vintage.

SENSORY ANALYSIS

Intense ruby red color. Aromas of morello cherry, currant, and blackberry, with hints of licorice, cinnamon, and black pepper. On the palate, it is very smooth, with elegant and ripe tannins, excellent structure, and a long-lasting finish.
